

DORMAA CHILDREN'S HOME

Our Orphanage Work *A Year in Review*

Dormaa Children's Home is a children's care facility that provides shelter and basic education to children. It caters for the needs of orphans, disabled and needy children in the Dormaa area of Ghana. The orphanage has

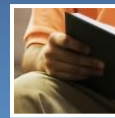

officially been commissioned and is flourishing. Our hired staff includes a manager, nanny and security guard.

MAY 1, 2018

Some of our Objectives

Provide shelter for orphans and extremely needy children on emergency to short-term basis.

To provide educational support to needy children in the Dormaa area

To use the facility as a springboard to cater for the health care needs of physically challenged children in the Dormaa area.

"Religion that God our Father accepts as pure and faultless is this: to look after orphans and widows in their distress..."
James 1:27

Four Children Admitted to the Home

We currently have four children who live in the orphanage home. Their ages range from ten months to eight years. The five-year old and the eight-year old have been enrolled in school and they are doing remarkably well academically. The orphanage takes care of all their living expenses including: shelter, nutrition, healthcare needs and education.

Giving Back to Our Community

The Department of Social Welfare approached the Orphanage. They wanted to aid newly born twin children who were born premature at the Dormaa hospital. Their mother fell into comma after delivery and had to be rushed to the nearest well-resourced intensive hospital at Komfo Anokye hospital at Kumasi. The Orphanage Leaders arranged to buy baby formula (Pre-NAN) needed to support their growing bodies. The children and the mother eventually pulled through and are now healthy and well.

SEPTEMBER 2017

The widow and some of her children

The orphanage was contacted to help a poor widow who had eight (8) children. The woman and her children lived in an uncompleted house. Their house did not have doors or windows. Social support structures do not exist in Ghana to help such poor widows. Commonly, women in this predicament do not have a good education and, therefore, are unemployed. The widow asked for financial help to buy one bag of corn to cook and sell to make a living. The orphanage provided small seed money, enough for 4 bags of corn and items she needed to work with, so she could support her family. In addition, the orphanage provided basic school supplies (uniforms, sandals, school bags, books, etc.) for three of the widow's children and also helped to enroll them in school.

MARCH 2018

The poor lady Regina and her child

Regina Poma gave birth at the Dormaa hospital. Her baby was in the incubator for several weeks with many health problems. They were later discharged but Regina did not have money to pay her medical bills. Without the money, she could not go home. Regina was referred to the orphanage by the Social Welfare Services to help with baby food, etc. The orphanage provided her with one box of Nan 1, helped with her medical bill and transport fare to her village.

APRIL 2018

The premature child Rose Kyeraa

Baby Rose Kyeraa was 11 days old when her story came to light. Unfortunately, her mother is mentally ill and is not able to breastfeed her. The orphanage was asked to help provide her with baby food. The orphanage supported her with one box of Nan 1 baby formula.
